

Amendments to the Specification:

Please amend the Specification as follows:

On page 1, line 1, please replace the title with the following title:

OVERVOLTAGE PROTECTION DEVICE

On page 3, please replace the paragraph beginning at line 12 with the following rewritten paragraph:

Figure 3 is a sectional perspective view of a preferred form of a semiconductor arrangement of three unidirectional components in a single integrated circuit; [[and]]

On page 3, please replace the paragraph beginning at line 16 with the following rewritten paragraph:

Figure 4 is a view similar to that of Figure 3 of a second preferred form of semiconductor arrangement according to the present invention[[.]];

On page 3, please add the following paragraphs following line 17:

Figure 5 is a cross-sectional view of a third preferred form of a semiconductor arrangement according to the invention; and

Figure 6 is a cross-sectional view of a fourth preferred form of a semiconductor arrangement according to the invention.

On page 7, please replace the paragraph beginning at line 23 with the following rewritten paragraph:

[[In]] As seen in figure 4, in one embodiment each of the further anti-parallel diodes has a single PN junction.

On page 7, please replace the paragraph beginning at line 25 with the following rewritten paragraph:

[[In]] As seen in figure 5, in another embodiment at least one, but not all, of the further diodes is a multi-junction diode and each of the other further diodes has a single PN junction.

On page 7, please replace the paragraph beginning at line 28 with the following rewritten paragraph:

[[In]] As seen in figure 6, in another embodiment each of the further diodes is a multi-junction diode.
